Kendall Monroe

KMC Concrete Management Inc

725 Beaver Ruin Road NW

Lilburn, Georgia 30047

To Whom It Concern:

I am writing to recommend KMC Concrete Management Inc (KMC).

As a commercial design-build developer we are acquainted with Kendall Monroe and KMC Concrete Management as commercial concrete contractor. I have known Kendall Monroe for 20+ years and have been working with KMC from 2005 to present. We've had only positive dealings with KMC and the management team, employees, and their crews on projects throughout the years.

Specializing in industrial FF/FL floors we can always count on the leadership and attention to detail that KMC continues to provide. KMC is proficient in the installation of foundation packages, retaining walls, large parking lots, rebar installation for tilt panels, slab pours with flatness numbers exceeding FF65/FL45, as well as, any repairs on concrete in existing buildings. KMC has been a great resource and team member for Rooker through the years.

I highly recommend Kendall and his team at KMC Concrete Management and I have no doubt we will work with them again in the future.

Regards,

Alan Gray
